

SCENE Version 2023.0.1

Release Notes

May 2023

FARO is pleased to announce the release of SCENE and SCENE LT version 2023.0.1.

We would like to thank customers who provided valuable product input.

This release includes feature enhancements that are designed to increase productivity, mobility and ease-of-use.

Release Version 2023.0.1

Announcements

- This is a hotfix version due to some critical issues found in SCENE 2023.0. We highly recommend installing this new version.

Improvements

- SC-7308: The logging of scan data related errors has been improved.

Bug Fixes

The following issues have been fixed:

- SC-7239: Loading a raw Flash scan sometimes failed returning an unknown error.
- SC-7240: The SCENE API gave wrong point positions when a scan had very large transformations.
- SC-7296: Canceling a registration sometimes caused SCENE to crash.
- SC-7300: SCENE sometimes crashed on the following occasions: creating point clouds, opening a quick view, during scan data loading
- SC-7302: SCENE sometimes crashed on opening a Flash scan quick view.
- SC-7303/SC-7319: In some cases, some scan parameters provided by the FARO Focus Laser Scanner were ignored. As a result, inaccurate points were not filtered.
- SC-7328: In some cases, SCENE returned error 18 when saving the project after processing.

Further Information

Online Help and Video Tutorials

FARO's Knowledge Base provides a variety of online tutorials for SCENE software. Access them from the Help menu within SCENE or with the following link:

knowledge.faro.com/Software/FARO_SCENE/SCENE

Visit the FARO Customer Service area on the Web at www.faro.com to search our technical support database, which is available 24 hours a day, 7 days a week. The link to the technical support database is also accessible from within SCENE.

Version History and Release Notes/
